

I would be very much opposed to weaking our state's current stance on telemarketing calls. I used to receive between 10 - 15 calls per weekend (EVENT SUNDAY MORNINGS!) and at least 3 calls a day during the week. I work full-time so these calls were coming in at night. About once a week a call would be left during the day on my answering machine using up valuable space on my machine I want reserved for calls from family and friends.

Please don't change our current telemarketing law!
